

How to change the language of the audio

The audio of Marcus Marshall's presentation is available in both French and English:

Left speaker (L) = interpretation (French)

Right speaker (R) = original audio (English)

A step-by-step guide to setting up your system to play your preferred language:

MacOS X

1. Open 'System Preferences'
2. Then open 'Sound'
3. Then switch to 'Output'
4. Pick the device you have enabled right now
5. 'Internal speakers', 'Headphones' etc.
6. Move the scrollbar to the left if you prefer the English version or to the right for Catalan.

Windows 10

1. Right click on the speaker icon in your taskbar (bottom right on your screen).
2. Select 'Playback devices'.
3. Right click on the playback device you are using and select 'Properties'
4. Click on the second tab (at the top of the menu), entitled 'Levels'
5. In the 'Levels' menu, click on the button entitled 'Balance' for the first option.
6. Adjust the balance to the required level: right for English (L=100 and R=0) left for French (L=0 and R=100)

iOS (iPhone)

1. Open 'Settings' > 'General' > 'Accessibility'
2. Scroll to the 'Hearing' section and adjust the balance between the left and right channels.
